

**Alaska Department of Natural Resources Office of Habitat Management and Permitting**

In addition to identifying any concerns and/or issues your agency might have with the proposed project, the following information is requested:

1. We have researched the ADF&G's *An Atlas to the Catalog of Waters Important to the Spawning, Rearing or Migration of Anadromous Fishes* and any findings are identified in the scoping letter and/or Appendix A. If you have any other information and/or data on anadromous or resident fish streams in the vicinity of the proposed project, including spawning/rearing habitat and migration corridors please provide us that information.
2. Identify any fish species within the project boundaries that may be used for subsistence.
3. We have researched the ADF&G *State of Alaska Refuges, Critical Habitat Areas and Sanctuaries* and any findings are identified in the scoping letter and/or Appendix A. If these special areas exist in the project vicinity, would the normal activities of these areas be affected by the proposed project?
4. Provide information on wildlife other than fish in the vicinity of the proposed project.
5. Would the project affect wildlife migration corridors or bisect/segment wildlife habitat?
6. Identify any permits and/or clearances to be obtained from your agency for the proposed project.
